

Offshore Structures (Britain) Ltd.  
Haverton House  
Haverton Hill Rig Yard  
Billingham  
Stockton on Tees TS23 1PZ  
United Kingdom

The Company recognises and accepts that concern for Health, Safety, Environment and Quality is an integral and fundamental part of the Company's corporate business strategy.

It is therefore committed to policies and actions which will ensure all employees and contractors take responsibility for working in a manner that promotes quality, minimises the risk to property, the environment local or global and promotes Health & Safety, preventing ill health and injury to employees, contractors and visitors.

In order to maintain a high level of quality, prevent incidents or pollution, the Company will ensure that effective systems and processes are implemented and Employees combine Health, Safety and Environmental awareness with good working practices. This will enable us to maintain the sites and surrounding areas in a safe, clean and healthy state for our Employees and our neighbours.

**Offshore Structures (Britain) Limited will:**

Comply with or exceed regulatory, legislative or other requirements the Company may subscribe to in order to ensure Health, Safety and protect the Environment.

Co-operate with the relevant authorities and regulatory bodies to ensure new developments have due regard for health, safety and environmental impacts and fulfilling our legal and compliance obligations.

Protect the environment by assessing and managing all foreseeable risks and opportunities within the business and aim for continual improvements in Health, Safety, Environmental and quality performance through the setting of measurable objectives and targets.

Ensure awareness and understanding of best practice, and implement relevant techniques and processes wherever practicable.

Use materials and energy efficiently to minimise waste, protecting the environment and preventing pollution.

Provide Employees, Customers, Business Partners and sub-contractors, as appropriate, with the information and training necessary to promote awareness of potential impacts on Health, Safety, Environment and Quality, including the need for controls.

Ensure Sub Contractors and suppliers manage their activities for OSB in line with this policy.

This policy is subject to review at least annually by Senior Management to ensure it remains relevant and appropriate to the Company.

This policy is communicated to all persons working for or on behalf of the Company through briefings and by permanently being displayed in Reception and on the network.

This policy is made available to interested parties and to the general public on request.
